PROJECT FROG FINALIST IN 2008 CRUNCHIES AWARDS

Innovative Green Building Manufacturer Selected From 180,000 Nominees for “Best Clean Tech”

SAN FRANCISCO, CALIF. – January 5, 2009 – San Francisco-based Project FROG is pleased to announce its nomination as a finalist in the 2008 Crunchies Awards in the category of “Best Clean Tech.” The second annual Crunchies recognize and celebrate the most compelling start-ups, internet and technology innovations of the year. Project FROG, a venture-backed manufacturer of smart building systems, was chosen from nearly 180,000 public nominees.

“You often hear, ‘It’s an honor just to be nominated,’ but for us it really is,” said Adam Tibbs, president of Project FROG. “We’re in the company of some really remarkable people, so just making it onto the radar is a huge accomplishment, and testament to the work we’re doing to make higher-quality green building solutions that are fast, intuitive and affordable for a broader market.”

Winners will be chosen by internet voting, which continues through January 5 at <http://crunchies2008.techcrunch.com/votes>, and announced live on January 9 at an awards ceremony in San Francisco. The Crunchies is co-hosted by [GigaOm](#), [VentureBeat](#), [Silicon Alley Insider](#), and [TechCrunch](#).

About Project FROG

Better, greener, faster, cheaper. Smart. Project FROG Inc. is a venture-backed company founded in 2006 with the mission of designing and manufacturing smart buildings -- high-performance, green building systems that are healthy, quick to deploy, affordable, sustainable and permanent. The company's leadership team comprises award-winning architects as well as accomplished entrepreneurs and innovative builders. FROG (Flexible Response to Ongoing Growth) buildings are architecturally elegant, highly functional, energy efficient, quick-to-deploy and adaptable.
